

# ART UpCLOSE

*A Survey of Contemporary Art*

**WORLD EDITION 2015**

New York - Miami - Monte Carlo

An aerial photograph taken from an airplane window, showing a vast cityscape and coastline. The city is densely packed with buildings and infrastructure, extending along a long, narrow peninsula. The ocean is visible to the right, with a clear horizon line. The sky is a deep blue, and the wing of the airplane is visible in the upper right corner. The overall scene is captured from a high altitude, providing a wide perspective of the urban landscape.
