Whilst a billion people from starvation. Three quarters of them are children. Every day thousands of children die from the effects of hunger and malnutrition. Poverty, mismanagement, climate change, natural disasters or war are the causes of this tragedy, which means untold suffering for each individual person.

Every time I hear on the news of starvation of many children.. I know what it means to be hungry – at the age of 21 I was in Brazil in the jungle and had nothing to eat except this stupid cassava roots...

With this painting I want to wake up the people who have only consumption in mind !!!
